# **SAIR BACK, SAIR BANES**

BY ANTHONY ENGEBRETSON

---

*A dark shape now stood in those choppy dark waters. A horse. A black one, large as she'd ever seen, with a mane that poured down its neck.*

---

## **BOOK DETAILS:**

Genevieve hoped a trip to the Scottish village of Fonniskie would help her reconnect. But her vacation turns out to be less than relaxing: the nearby loch holds a dark secret, and Genevieve finds herself haunted by a relentless pursuer whose obsession means he will do anything to possess her—even kill.

Blending ancient folklore with modern alienation, Anthony Engebretson's eerie debut novella will make you question what it really means to be human.
