HOLD MY HEART

BY KOJI A. DAE

"Seductive to the core. *Hold My Heart* is an intriguing thrill, its world tinged with noir atmosphere and a passion for grime on skin and tongues on blades. And with a creature too? This is everything you could want from a messed-up threesome."

-- Hailey Piper, Bram Stoker Award-winning author of *Queen of Teeth* and *A Game in Yellow*

BOOK DETAILS:

Suffering from severe depression, Emma seeks out a serial killer who will kill her in the most gruesome way she can describe. But when she backs out of their agreement, she discovers the murderer is host to a parasitic creature from another dimension that feeds on the extremes of pleasure and pain. When the creature turns its attention to Emma, she is torn between the ecstasy of desire and guilt over her new urges. At the same time the killer, no longer protected from his memories by the creature, has to face a century of gruesome murders, including the death that started everything.

Hold My Heart is an uncompromisingly dark horror novella about desire—and the things we'll do to get what we really want.

ABOUT THE AUTHOR:

Koji A. Dae is a queer, synesthetic writer passionate about mental health. A born drifter with plenty of dark stories, childbirth is the closest thing to eldritch she has experienced. After years of rambling, she finds herself strangely settled in the heart of Bulgaria with her partner, two kids, a cat, and a whole lot of responsibility. Working in tech by day, at night she writes about things people see from the corner of their hearts and all varieties of human relationships -- with each other, with technology, and with the greater universe.
